TAP-BALLET for ages 3 and up is a combination class divided with 20 minutes of tap and 25 minutes of ballet. Since ballet is the basis for all dance technique, the combinations of both work hand in hand. The technical training is taught through ballet, which in turn helps teach the proper shifting of weight and patterns in movement for tap. Since children naturally respond to music and movement, all of the activities are executed to fun music.

Did you know that music is a wonderful way to learn? In fact, it is one of the best ways to learn for children ages birth to 6 years. Music Together, an extremely well researched and developed program, is based on the premise that all children are musical and have the same innate ability to learn music as a language. Our goal is to nurture the children's natural enthusiasm for music and movement. We sing songs, dance, do rhythmic chants and fun activities with balls, hula hoops, scarves, parachutes and more. We play lots of instruments (drums, tambourines, maracas, etc.) The joy of parent/caregiver participation is the most important factor in fostering the love of music making in children; so come and make music with us! Tuition includes a beautifully illustrated songbook, parent education materials and 2 copies of an outstanding CD recording of the rich variety of music covered in class.
